Share of European Structural and Investment Funds in public investment 2015-2017 in %

Source: Eurostat, DG REGIO

Policy objectives Cohesion Policy (PO)

- (1) a **smarter Europe** by promoting innovative and smart economic transformation;
- (2) a **greener, low-carbon Europe** by promoting clean and fair energy transition, green and blue investment, the circular economy, climate adaptation and risk prevention and management;
- (3) a more **connected Europe** by enhancing mobility and regional ICT connectivity;
- (4) a more **social Europe** implementing the European Pillar of Social Rights;
- (5) a **Europe closer to citizens** by fostering the sustainable and integrated development of urban ('**SECAPs**!'), rural and coastal areas and local initiatives.

Specific objectives for the ERDF and the Cohesion Fund

(b) 'a **greener, low-carbon** Europe by promoting **clean and fair energy transition**, green and blue investment, the **circular economy, climate adaptation** and risk prevention and management ('PO 2') by:

- (i) promoting energy efficiency measures;
- (ii) promoting renewable energy;
- (iii) developing smart energy systems, grids and storage at local level;
- (iv) promoting climate change adaptation, risk prevention and disaster resilience;
- (v) promoting sustainable water management;
- (vi) promoting the transition to a circular economy;
- (vii) enhancing biodiversity, green infrastructure in the urban environment, and reducing pollution;
- (viii) Sustainable Urban Mobility

Thematic concentration of ERDF support:

- 30% for 'PO 2' in 'less developed' and 'transition' regions
- 0% - 25%/30% for 'PO 2' in 'more developed'

... **for the Just Transition** ...

- + Support for business, SMEs, innovation (PO1)
- + workforce development (PO4)
- + community lead bottom-approaches (PO5)

The beneficiaries

AUTHORITY

FORMS OF FINANCE

- Grants
- Support through financial instruments: equity or quasi-equity, loan, guarantee
- Prize

COMMUNITY LED LOCAL DEVELOPMENT (CLLD)

- CLLD focused on sustainable urban development, including:
 - Urban neighbourhoods
 - Cities, towns and suburbs
 - Functional urban areas
- ✓ **SECAPs - Sustainable Energy and Climate Plans – Covenant of Mayors**
- ✓ **Just Transition plans and strategies**

TECHNICAL ASSISTANCE

- Information and communication
- Preparation, implementation, monitoring and control
- Evaluation and studies, data collection
- Reinforcement of the capacity of Member State authorities, beneficiaries and relevant partners

The EU's 2030 climate and energy framework: Opportunity or threat?

2030 goals for
climate and energy

“NECPs inform

The Way Forward

INVESTMENT GUIDANCE ON COHESION POLICY FUNDING 2021-2027 FOR SPAIN

Policy Objective 2: A low carbon and greener Europe – Clean and fair energy transition, green and blue investment, circular economy, climate adaptation and risk prevention

The 2016 and 2017 figures show an increase in energy consumption, in particular in industry and buildings. High priority investment needs are therefore identified **to promote energy efficiency**, and in particular to:

- accelerate the **energy efficient renovation of the building stock** (including public buildings and small and medium-sized enterprises), prioritising the renovation of residential buildings and focusing on the **energy poor**;

- promote **small-scale infrastructure and access to small grids** with cross-border regions.

The electricity interconnection level of Spain was 6% in 2017. Priority investment needs are identified to promote smart energy systems at local level and in particular to:

- deploy **smart electricity distribution grids and storage solutions** – linked to demand and supply planning, also in a cross border-context.

The increase of the renewable energy share in Spain has visibly slowed down between 2014 and 2017.

Priority investments needs are therefore identified to promote renewable energy and in particular :

- foster the **deployment of small-scale renewable electricity capacities owned by energy communities, small and medium sized enterprises or individual energy consumers**;
- promote the transition to **renewables in heating and cooling**;
- support **renewable energy technologies that are close to market** or not yet widely deployed.

INVESTMENT GUIDANCE ON COHESION POLICY FUNDING 2021-2027 FOR GERMANY

Policy Objective 5 – A Europe closer to citizens by fostering the sustainable and integrated development of urban, rural and coastal areas and local initiatives

Germany is facing structural **transition challenges in the coal mining regions as a result of the planned phasing out of coal**. Investment needs have been identified to 'foster integrated social, economic and environmental local development, cultural heritage and security, including for rural and coastal areas **also through community-led local development**', and in particular to:

- **develop coal regions, managing structural change in order to increase attractiveness for enterprises and the workforce, complementing the EU Coal Regions Initiative.**

https://ec.europa.eu/info/publications/2019-european-semester-country-reports_en

PROGRAMMING

- The **principles and priorities of cohesion policy** are distilled through a process of consultation between the Commission and the EU countries.
- Each Member State produces a **Partnership Agreement**, which outlines the country's strategy and proposes a list of programmes.
- In addition to this Member States also present **operational programmes (OP)** which cover entire Member States and or regions. **OP contains regional or sectoral objectives, measures and financial allocations.** The programmes present the priorities of the country and/or regions or the cooperation area concerned.
- The Commission negotiates with the national authorities on the final content of the Partnership Agreement, as well as each **programme**.
- Workers, employers and **civil society bodies can all participate in the programming and management of the OPs.**

PARTNERSHIP

Member States are required to:

- Ensure that partners are involved in all stages of the process, from planning to evaluation
- Be transparent in the selection of partners
- Provide sufficient information to partners and give them sufficient time to make their voice heard in the consultation process
- Support capacity building of partners
- Create platforms for mutual learning and exchange of good practice

Possible involvement

- Formulate investment areas and investment needs embracing possible elements sectoral or regional decarbonization of transformation agendas.
- Formulate EU funding requirements in combination with your NECP assessment.
- Ask for 'Just Transition-strategies'.
- Send it to Government and DG Regio.

An illustration featuring a central white document titled 'COHESION POLICY FUNDS' with horizontal lines for text. The document is flanked by stacks of Euro coins and scattered 50 Euro banknotes. To the left is a white wind turbine, and to the right is a blue solar panel. The background includes a large orange sun with rays and a landscape with green hills and a blue sky.

Federal Ministry
for the Environment, Nature Conservation
and Nuclear Safety

European
Climate Initiative
EUKI

based on a decision of the German Bundestag

The European Climate Initiative (EUKI) is a project financing instrument by the German Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU). Its implementation is supported by the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH. It is the overarching goal of the EUKI to foster climate cooperation within the European Union (EU) in order to mitigate greenhouse gas emissions.

The opinions put forward during this event are the sole responsibility of CAN Europe and do not necessarily reflect the views of the Federal Ministry for the Environment, Nature Conservation and Nuclear Safety or of the project partners.

Climate Action Network (CAN) Europe is Europe's leading NGO coalition fighting dangerous climate change.

With over 160 member organisations from 35 European countries, representing over 1.500 NGOs and more than 40 million citizens, CAN Europe promotes sustainable climate, energy and development policies throughout Europe.
