

Questionnaire - Senior Policy Officer for Climate

Annex to the job offer - Questionnaire to be sent with application

Question 1:

Following the IPCC special report on 1.5 degrees, civil society and citizens call for immediate action and a legal tool to achieve carbon neutrality by 2040 in Europe. Commission President-elect Ursula von der Leyen has promised a climate law for early 2020. This law will need to cover all sectors. What are in your view the most difficult economic activities to decarbonise, why, and how should they be addressed in a climate law? (max 10 lines)

Question 2: How can the EU budget drive the Green European Deal and its decarbonisation ambition (max 10 lines)

Question 3: How do you think carbon taxes should be used to catalyse climate action in Europe, and who do you think should be responsible to make it happen and how? Please discuss strengths/weaknesses/opportunities and barriers to your proposed approach. (max 10 lines plus SWOT-table)

Question 4: Suggest a title and eventual sub-title for a media action challenging the lack of implementation of the current 2020 energy and climate targets in Member States.
